1. PRECAUTIONS

1. This unit does not operate independently. The unit must be used with a source unit that has a cable connection for CeNET wire bound (sold separately).
2. The DPH7500z can easily be damaged by moisture, high temperatures or high humidity. Keep the inside of the car clean and well ventilated.
3. Never subject the DPH7500z to strong shocks or open its case. Doing so may result in damage.
4. Use a soft, dry cloth to wipe dirt off the DPH7500z. Never use a hard cloth or thinners, alcohol, etc. For tough dirt, apply some cold or lukewarm water to a soft cloth and wipe off the dirt gently.
5. When the source unit is switched to the traffic announcement or PTY interrupt reception while using the DPH7500z, the effect from DPH7500z doesn't work.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to consult the dealer or an experienced radio/TV technician for help.
